“ Trey, Robbie and Emily

This is your cousin from the valley. I personally am heart broken at the news of your Mother's passing. When she first got the diagnosis, she texted me after a few weeks. We texted for days on end, I tried so hard to help keep her spirits up and she fought a good fight. Emily, she loved you so much, my prayer is that you will remember in life everything your Grandmother taught you, but above all remember how special you were to her. Trey and Robbie please don't forget all of your family and friends in Maggie Valley and bring Emily to visit with us soon.

We all love you so much.
